

Are you an Emergency Department (ED) Physician or Nurse?

Have you ever found yourself clicking through dozens of tabs on ConnectCare to find your patients past medical history information?

We're running a short research questionnaire to understand what information would be vital in a past medical history summary and the best way to present this information to you.

Your input will be used to inform the development of an AI enabled auto-summary tool.

The anonymous survey can be completed using the QR code. The survey will take <10 minutes. As a thank-you, you can enter a draw to **win a \$20 gift card.**
